3D modeling and 3D printing are some of the fastest growing STEM fields. In this class, students will learn how to design their own prototypes! Through an easy, web-based 3D design and modeling tool called Tinkercad, students will move, scale, and rotate 3D objects in the 3D workspace. They will copy, paste and adjust simple shapes to create variations of those shapes. They will also learn how to prepare their models for 3D printing. Join us and have fun!
