Name _____   Date _____

Addition and Subtraction Study Guide

Vocabulary:

difference   minuend   subtrahend

sum   addend

	the answer to an addition problem
	a number being added
	the number being subtracted from
	the amount being subtracted
	the answer to a subtraction problem

Practice: Use the standard algorithm. Check your answer with the inverse operation (_____.)

Solve:	Use the inverse operation to check:
523,641 – 24,582 = g	
g = _____	
Solve:	Use the inverse operation to check:
829,725 – 232,531 = b	
b = _____	

Practice subtracting across zeroes:

Solve: 500,354 – 23,236 = n n = _____	Use the inverse operation to check:
Solve: 829,000 – 751,472 = d d = _____	Use the inverse operation to check:

Find the missing number:

$\boxed{}$ - 20,565 = 67,305

$\boxed{}$ + 1,402,758 = 4,981,253

98,632 - $\boxed{}$ = 52,903
